GUNNERSON *G* DENTAL

### MEDICAL TIP

*Did you know your mouth is a window to your overall health? Early signs of cancer and disease can be found in your mouth. During regular preventative care visits, Dr. Gunnerson's patients receive an oral cancer screening where hygienists check for warning signs. At Gunnerson Dental, they care about more than just teeth.*

**G**unnerson Dental is not your typical dental office. The team at Gunnerson Dental goes out of its way to make you comfortable the moment you walk in the door and saves you time with its advanced 3-D technology.

Aside from its award-winning, five-star customer service, Gunnerson Dental is best known for same-day dentistry utilizing the E4D in-house milling machine. It allows Dr. K. Cheyn Gunnerson to replace conventional impression methods with a clean, fast 3-D digital scan that is obtained in just a few minutes through a series of photographic images taken in the mouth. The technology allows for a custom-milled, permanent tooth restoration – all in one visit.

The final result is a natural-looking restoration of superior strength that matches your surrounding teeth.

Gunnerson Dental also likes to give back to its clients and to the community – and to help everyday heroes like Shawn Shearer, Amy Fairbanks and Jill Josephsen.

They were nominated for Gunnerson Dental's Smile Makeover Contest, where the winner would receive up to \$30,000 in dental, oral surgery, spa and photography services to celebrate their contribution to the community.

Gunnerson Dental just wrapped its 2015 Smile Makeover Contest at Christmas and will be announcing the next winner this month.

This is one of the ways Gunnerson Dental works to give back to the community that has supported the practice for more than 18 years.

Gunnerson Dental doesn't stop there. On June 4, Gunnerson Dental will sponsor its annual free dentistry day called Dentistry from the Heart.

On that day, hundreds of patients (first-come, first-served) will receive either a teeth cleaning, a cavity filling or an extraction free of charge. No catch. Just another way to give back.

Dr. Gunnerson and his five-star team work to make sure each patient has a comfortable experience each visit. The office has the feeling of a friend's house, not a dental office. An inviting fireplace, something to drink and a snack greet every visitor.

Dr. Gunnerson plays the piano and organ and sings with the Payson Civic Chorale – and he spends time arranging and composing music. He also enjoys rock cutting and polishing. Dr. Gunnerson especially loves spending time with his wife and five children exploring Utah through camping and hiking.
